I'm sorry that the emails have become time consuming and bothersome... But I'll remind you that I'm complying with the parent contact management plan that you, yourself approved. I'll also remind you that the parent contact management plan was based on accusations that are completely made up by Mr. Lineberry... whom I'll also remind you, has an extensive history of lying, cheating and stealing. I will ALSO remind you that Ive had to answer DAILY emails from Lineberry for nearly 2 years, until recently, when I'm ASSUMING his counsel advised him to stop.

With that being said, I considered letting it ALL go after the last email where you were generous enough to give me information regarding my son's graduation and ceremony times. But then I remembered that you could have stopped this before and any time during this pointless and unreasonable ban.

So here's how this is gonna go...

The emails will be sent automatically for any game of any sport, for any grade AND any event taking place on MUSD properties **JUST IN CASE** I want to attend. The demands of the parent contact management plan would otherwise be IMPOSSIBLE to comply with. The emails will continue to send until my children graduate, the ban is lifted or the world wide web crashes... but AGAIN, I'll remind you that I'm complying with the rules set forth in the PCM, by no one other than you.

Lastly, I'm considering attaching one voice recording to every email. You do realize that we started recording AFTER my very 1st meeting with Mr. Hull when Justin was just a freshman??.? And I'm going to start with the one that you vehemently disagree with Lineberry's actions and role in our court case. That one is THE BEST! (Thank you, Mr. Lineberry for providing me with 12 pages of email addresses!)

Have a great night.

Dr. Pettitt
